PROFESSIONAL SUMMARY

To leverage my growing expertise as a MEAN Stack Developer to contribute to the design and development of scalable, secure, and user-friendly web applications. I aim to be a valuable asset in a dynamic organization where I can continue enhancing my technical proficiency while contributing to innovative product development.

EDUCATION

AWADHESH PRATAP SINGH UNIVERSITY, REWA MADHYA PRADESH *2020 – 2023*

*Bachelor of Computer Applications – **Percentage** – 80*

SRI AGRASEN KANYA INTER COLLEGE, VARANASI UTTAR PRADESH *2019 – 2020*

*Intermediate – **Percentage** – 76*

THE AB'S ROWLAND SCHOOL, VARANASI UTTAR PRADESH *2017 – 2018*

*High school – **Percentage** – 65.8*

PROFESSIONAL EXPERIENCE

Digitalks Techno, Surat
Executive Full Stack Developer (MEAN Stack) *April 2025 – Present*

- Working on the HIMS (Hospital Information Management System) project using MongoDB, Express.js, Angular, and Node.js.
- Collaborating with senior developers to build and maintain backend APIs and integrate them with Angular frontend.
- Writing clean, modular code and actively participating in team code reviews and sprint planning.
- Continuously learning and implementing best practices in MEAN stack development.
- Using Git, Postman, and MongoDB Atlas in daily development workflow.

PROJECTS

Real-Time Chat Application | *PHP* *20 Dec 2024*
- Built a responsive chat application enabling real-time communication between users.
- Integrated user authentication and message history storage in the **MySql** database.
- Enhanced user experience by implementing **AJAX** for seamless messaging.
- Technologies used: **PHP, MySql, AJAX, Bootstrap**

Bank Management System | *Java* **20 Aug 2023**
- Developed core functionality and implemented **OOP principles** for robust code structure.
- Designed the **GUI** using **Swing** and **AWT** for customer interactions including account details and transactions.
- Handle **JDBC** connection with **MySql** database for secure data retrieval and updates.
- **Eclipse IDE** used for writing, **debugging** and maintaining the Java application.
- Software / technologies used: **Java, Swing, AWT, Layout Manager, MySql, JDBC, Eclipse IDE**

Dynamic Time Converter | *Java* **28 Feb 2023**
- The program is to convert the time **dynamically** across the countries.
- Software / technologies used: **Java, Swing, AWT, Eclipse IDE**

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript, jQuery, Bootstrap, Angular
Backend: Node.js, Express.js, PHP, Laravel, Java
Database: MongoDB, MySQL
Tools & Platforms: Git, GitHub, Postman, VS Code, Eclipse IDE
Operating Systems: Windows

CURRENT LEARNING & GOALS

- Deepening expertise in **MEAN Stack**, especially advanced Node.js backend and scalable Angular architecture.
- Building personal projects and improving GitHub presence to reflect full-stack capabilities.
- Seeking a challenging role in a product-based or dynamic development team to grow professionally.
